Configuring an email client

Hostedemail users can access their email via an email client. We support IMAP or POP connections. All you need is the correct password for the email address and our mail server settings for configuration.

Server settings

Username	your email address
Password	your email password
IMAP/POP/SMTP hostname	mail.hostedemail.com or mail.emailhome.com

Port numbers

	SSL Enabled	SSL disabled	TLS
IMAP	993	143	n/a
POP3	995	110	n/a
SMTP	465	8025	587
